

PATIENT INSTRUCTIONS

Collection of Semen for Fertility Studies, Vasectomy Reversal or Post Vasectomy for Motility

PROCEDURE

- 4 days prior to test, abstain from all sexual activity.
- Obtain specimen by masturbation. Do not use a condom or any form of lubricant.
- Collect the entire specimen into a clear, sterile, plastic yellow-top container.
- **Write your surname, first given name, date of birth and the date/time of collection on the container label.**
- **Keep specimen at approximately body temperature.**
- Return the specimen and request form directly to the nearest Healthscope Collection Centre that is attached to a Laboratory within 1 - 1.5 hours of collection. Call 1300 453 688 for the location of your nearest lab.

COLLECTION OF SEMEN POST-VASECTOMY

Collection instructions are the same as above, but check with your surgeon as a period of abstinence may not be required. The specimen can be delivered promptly to a Healthscope Collection Centre and from there transported quickly to our laboratory.

Please complete the questions below and return it with the specimen.

Patient's full name: _____

Number of days of abstinence: _____

Method of collection: _____

Is this a complete specimen? Yes/No

Date of collection: _____

Time of collection: _____
